## **HEARTLAND HEALTH REGION AWARDS TENDER FOR ROSETOWN LONG TERM CARE FACILITY REPLACEMENT**

Heartland Health Region has received approval to award the tender for the construction of the Rosetown Long Term Care (LTC) replacement project to Quorex Construction.

Mike Chyzowski, President of Quorex construction says "We are very pleased to be selected as the general contractor for this project and look forward to the partnership with Heartland Health Region in delivering this very exciting and much needed facility." We have worked previously in Rosetown with the construction of the new Co-op Food Store and we once again look forward to working within the community. Quorex Construction has a multi-disciplined team of professionals that have been in the construction and development business for more than 30 years. Some of their health care related projects include the Les and Irene Dube Centre for Mental Health, Fort Qu'Appelle All Nations Healing Hospital, MRI installations at RUH and St. Paul's Hospital, Prince Albert Victoria Square Professional Health Centre as well as the delivery of over 300 rooms of assisted living facilities. Some of their most recent projects include the 25 million dollar addition and renovation to the Place Riel Students Centre at the University of Saskatchewan, Meadow Lake Court House, the new Saskatoon RONA and the TCU Place addition and renovation.

The Rosetown Advisory Committee has worked hard to move the project forward through the various approval stages in partnership with the Ministry of Health. Construction was targeted to begin in late fall but some delays have occurred while the committee worked through design and funding issues to get the best value for the available funding and to ensure that a safe, home-like atmosphere for our residents won't be compromised. Construction is expected to begin in the near future. Quorex plans to move equipment to the site early to mid-February.

The building design calls for 54 Long Term Care beds. The cost is \$24.5 million including furniture. The funding groups for Rosetown include the Town of Rosetown, Town of Zealandia, Villages of Harris and Mildren, RM's of Mildren, St. Andrews, Pleasant Valley, Harris, Marriott and Mountainview, and the Rosetown and District Health Foundation. The Heartland Health Region sincerely appreciates the support they've received from Foundations and local community groups. Projects like these would not be possible without foresight, commitment, and cooperation from these dedicated people. The Minister of Health and our local MLA joined the Advisory Committee for a sod turning at the site on October 3<sup>rd</sup>, 2011.

The announcement of this important next step is great news for the community of Rosetown and the surrounding area!
